20 rwang 0	@ratzesberger on deck talking about sentient enterprises. @terdata labs #td3pi http://t.co/slnkluG2V9
21 drnatalie	. @ratzesberger 1.8 Trillion GB of data & every 2 yrs it doubles @teradata #td3pi
22 matwg	RT @drnatalie: . @ratzesberger 1.8 Trillion GB of data & every 2 yrs it doubles @teradata #td3pi
23 merv	#td3pi @ratzesberger describes game built by young man who didn't know the science behind platform. Abstraction is the ultimate tool.
24 davidpwu	RT @rwang0: MyPOV: data is the foundation of the #digitalbiz #digitaltransformation ahead of us. Lead w/ biz model shift. $\#td3pi\ http://t.c$
25 drnatalie	The Sentient Enterprise @ratzesberger - maturity of data capabilities in organizations - like to compare notes! @teradata #td3pi

platform. Abstraction is ultimate tool.

RT @merv #td3pi @ratzesberger describes game built by young man who didn't know the science behind

26 tonybaer

	27 drnatalie	The Sentient Enterprise @ratzesberger - Sentience is the ability to feel, perceive, or to experience subjectivity @teradata #td3pi
	28 rwang0	MyPOV: forget real time, focus on right time. Context and relevancy are king. http://t.co/ovjhhnCrzv#td3pi
	29 rwang0	RT @drnatalie: The Sentient Enterprise @ratzesberger - Sentience is the ability to feel, perceive, or to experience subjectivity @teradata
	30 rwang0	RT @drnatalie: . @ratzesberger 1.8 Trillion GB of data & every 2 yrs it doubles @teradata #td3pi
	31 jadp	The Sentient Enterprise strategic analytics maturity model developed by @ratzesberger and @MohanSawhney over the past right months #TD3PI
	32 tonybaer	@ratzesberger describing "data anarchy" plaging most companies., Not new problem, but more data sources compounded problem #td3pi
	33 drnatalie	. @ratzesberger - Data Anarchy: Sifting through data, put out fires, humans direct data @teradata #td3pi
	34 colinjwhite	Real-time interactions and self-service everything becoming key driving force and gaining traction in enterprises. @ratzesberger #TD3PI
	35 hackathorn	#td3pi #bbbt Oliver Ratzerberger: Wow with global tech! Barriers are data anarchy, sifting thru data, manual human action, daily fire drills
	36 datagenius	#td3pi @ratzesberger companies are sinking in data anarchy today. We have created a human chain to sift & push data. Data fire drills.
	37 teradata	#data Anarchy exists in a lot of companies - \$\$\$, time pushing data around the company, @Ratzesberger offers better way #td3pi
	38 matwg	RT @drnatalie: . @ratzesberger - Data Anarchy: Sifting through data, put out fires, humans direct data @teradata #td3pi
	39 teradata	Glad you are enjoying #td3pi! @prussom @marksmithvr @shawnrog @drnatalie @Lindy_Ryan
	40 merv	RT @datagenius: #td3pi @ratzesberger companies are sinking in data anarchy today. We have created a human chain to sift & push data. Data f
	41 rwang0	MyPOV: business processes, workflows, structure are all being disruptive. Hence we need mass personalization at scale. #td3pi
	42 drnatalie	. @ratzesberger - mistake was to make data warehouse - EDW - often doesn't match the business need @teradata #td3pi
	43 matwg	RT @drnatalie: . @ratzesberger - mistake was to make data warehouse - EDW - often doesn't match the business need @teradata #td3pi
	44 drnatalie	. @ratzesberger - EDW was kinda backward - build warehouse, then ask how will we use the data in business @teradata #td3pi
	45 rwang0	MyPOV: assume flows are ad hoc, data requests are accessed not owned, funnels are dead. Context is key here. #td3pi
	46 jackwmson	RT @prussom: #BigData & #Analytics legend @Ratzesberger takes the stage at #TD3PI. He's former @eBay & @Sears, now @Teradata. Regular #TDWI
	47 tonycosentinovr	@ratzesberger - marketing comes with idea on back of the napkin, IT comes back with 50 page doc #td3pi
0:10	48 merv	#td3pi @ratzesberger describes how many ideas start on napkins. My PoV: give that to IT, and they often used to build you a paper mill.
	49 teradata	RT @datagenius: #td3pi @ratzesberger companies are sinking in data anarchy today. We have created a human chain to sift & push data. Data f
	50 drnatalie	. $@$ ratzesberger - now nobody wanted to wait on IT, so they made data marts - its business's request for agility $@$ teradata $#$ td3pi
	51 teradata	RT @rwang0: MyPOV: business processes, workflows, structure are all being disruptive. Hence we need mass personalization at scale. #td3pi
	52 matwg	RT @drnatalie: . @ratzesberger - now nobody wanted to wait on IT, so they made data marts - its business's request for agility @teradata #t
	53 steve_dine	Oliver @ratzesberger speaking on the quest for data agility. It turns into the wild wild west, not agile. amen! #td3pi

	54 williammcknight	"#Agile is not wild, wild west" @ratzesberger #td3pi
	55 drnatalie	. @ratzesberger - agility requires people, process & tech to support that & mostly data marts don't have consistency @teradata #td3pi
	56 danwoodsearly	#td3pi @Teradata's Oliver Ratsesberger: Challenge for making data work, leaving waterfall methods behind but still getting quality results.
	57 orzota	RT @merv: #td3pi @ratzesberger describes how many ideas start on napkins. My PoV: give that to IT, and they often used to build you a paper
	58 tonybaer	@ratzesberger descriibes "data drift" that often happens. We do data marts ot be agile, but accuracy, consistency often suffers #td3pi
	59 datagenius	@ratzesberger talking data drift in enterprises #td3pi http://t.co/tFcO0vyUpT
	60 lindy_ryan	RT @williammcknight: "#Agile is not wild, wild west" @ratzesberger #td3pi
	61 neilraden	#td3pi I don't actually agree with Oliver that we were IT people who just ported IT thinking to building data warehouses. Some of us weren't
	62 hackathorn	#td3pi #bbbt Oliver Ratzesberger: painting realistic pic of dysfunctional IT culture. Agile method is very tough to do right! Data drift!
	63 datagenius	@ratzesberger taking why agile data processing is not ready yet. #td3pi http://t.co/0B0TA4ruaH
	64 prussom	At #TD3PI, @ratzesberger making case for #AgileBI & lean methods applied to #EDW. Biz can't wait. Old
		req gathering is inaccurate. #TDWI.
	65 drnatalie	. @ratzesberger - <mark>garbage in, garbage out - see 60% Data Drift - lack of data accuracy</mark> @teradata #td3pi http://t.co/vq4aPFsD3X
0:15	66 tonycosentinovr	@ratzesberger talks agility w/o process, version control, governance, training, platforms resulting in data anarchy; need mid ground #td3pi
	67 dbstodder	@ratzesberger Sr VP, Softw @Teradata: must solve "being slow w data - how do I not fall for monstrous dev cycle tht takes forever?" #td3pi
	68 tonybaer	RT +1 @Lindy_Ryan @williammcknight: "#Agile is not wild, wild west" @ratzesberger #td3pi
	69 steve_dine	RT @TonyCosentinoVR: @ratzesberger talks agility w/o process, version control, governance, training, platforms resulting in data anarchy; n
	70 marksmithvr	Oliver @ratzesberger talks data drift & waste of time with data, yep, our research found this for years! #TD3PI http://t.co/McVrDhlEnn
	71 tonybaer	RT @prussom: At #TD3PI, @ratzesberger making case for #AgileBI & lean methods applied to #EDW. Biz can't wait. Old req gathering is inaccur
	72 prussom	@ratzesberger adds that #AgileBI is not mature yet. Still like old wild wild west. #TD3PI #TDWI
	73 bevelson	#td3pi team - we've all been sold on the centrized data arch, single version of the truth, agile 4 the last 20 yrs. What's really new here?
	74 tonybaer	To combat "data drift" eBay went to timeboxing projects to 30, 60, or 90 days #td3pi @ratzesberger
	75 hackathorn	#td3pi #bbbt Oliver: 100x data duplication to integrated DW in 20 days. Then plug on all systems! Burn the boat so no return!
	76 merv	#td3pi "Timebox it. Turn it off." - @ratzesberger on eliminating unneeded, duplicative data that accumulates during re-architecting efforts.
	77 colinjwhite	RT @TonyBaer: To combat "data drift" eBay went to timeboxing projects to 30, 60, or 90 days #td3pi @ratzesberger
	78 williammcknight	@ratzesberger talking importance of time-boxing system shutdowns, performance tuning, etc. Great idea. #td3pi
	79 teradata	a data mart cannot be cheap enough to justify its existence, reminds @Ratzesberger #td3pi
	80 neilraden	#td3pi I see clients moving off Oracle or DB2 DW's, to analytical platforms, but missing opportunity to improve. Just forklift. Agree w/Oliver
	81 rmclane	RT @rwang0: MyPOV: forget real time, focus on right time. Context and relevancy are king. http://t.co/ovjhhnCrzv #td3pi
	82 marksmithvr	"A data mart cannot be cheap enought to justify its existence" sayss @ratzesberger - logical but many are not & data chaos grows! #td3pi

83 bevelson	#td3pi red alert! agile <> EDW
84 claudia_imhoff	#td3pi @ratzesberger says at @ebay, "A data mart cannot be cheap enough to be justified". Interesting! #BBBT
85 marksmithvr	RT @bevelson: #td3pi red alert! agile <> EDW
86 teradata	if you cannot be agile with structured data, you certainly cannot be agile with #bigdata because it is so much harder. #td3pi
87 merv	#td3pi What happens AFTER agile? MyPoV: apply controls, instrumentation to detect failures - necessary steps. Not "over" till it's over.
88 colinjwhite	If you can't be agile with structured data in the EDW then it is even more difficult with big data! @ratzesberger #td3pi
89 prussom	@ratzesberger recounts eBay policy: "Data mart cannot be cheap enough to justify its existence." #Analytics sandboxes r better. #TD3PI #TDWI
90 tobyhudsonb2b	RT @Teradata: if you cannot be agile with structured data, you certainly cannot be agile with #bigdata because it is so much harder. #td3pi
91 claudia_imhoff	+1 RT @NeilRaden: #td3pi I see clients moving off Oracle or DB2 DW's, to analytical pltfms but missing opp to improve. Just forklift. #BBBT
92 prussom	Agile Data Warehouse at eBay. Anyone can request and provision their own data mart, ready in 5 min. #TD3PI #TDWI
93 jadp	The Sentient Enterprise starts with agile datawarehousing and uses @Teradata #DataLabs @ratzesberger #TD3PI
94 claudia_imhoff	+1 RT @ColinJWhite: If you can't be agile w structured data in EDW then it's even more difficult with big data! @ratzesberger #td3pi #BBBT
95 bevelson	#td3pi ok, a virtual data mart in 5 min? A data mart on demand? I'll buy that. Anxious to see what's really behind it
96 colinjwhite	RT @bevelson: #td3pi ok, a virtual data mart in 5 min? A data mart on demand? I'll buy that. Anxious to see what's really behind it
97 rosejason	"@bevelson: #td3pi red alert! agile <> EDW" #BreakingNews did not see that coming from @Teradata
98 ggheorghiu	RT @Claudia_Imhoff: +1 RT @NeilRaden: #td3pi I see clients moving off Oracle or DB2 DW's, to analytical pltfms but missing opp to improve
99 prussom	@ratzesberger: Creating a data mart is not the problem. It's the ramifications of ungoverned data that are later the problem. #TD3PI #TDWI
100 tracykowal	Exactly.RT @NeilRaden: #td3pi Don't actually agree w/Oliver that we were IT people who just ported IT think to build dws. Some of us weren't
101 claudia_imhoff	RT @JAdP: The Sentient Enterprise starts with agile datawarehousing and uses @Teradata #DataLabs @ratzesberger #TD3PI #BBBT
102 rwang 0	MyPOV: the concept of virtual data marts is always cool. create it on demand in 5 mins. or analytic sandboxes. Let's see who wins. #td3pi
103 czds	RT @prussom: @ratzesberger: Creating a data mart is not the problem. It's the ramifications of ungoverned data that are later the problem
104 prussom	@ratzesberger: Sandboxes should expire. At ebay, user gets an email warning of termination, but with links to renew sandbox, #TD3PI #TDWI
105 tonybaer	Instead of standup data marts, create self-service virtual data marts on Teradata box to prevent data drift #td3pi
106 drnatalie	. @ratzesberger -Data Maturity Capabilities: Level 1: Agile Data Warehouse @teradata #td3pi http://t.co/zKm9SHLDak
107 colinjwhite	RT @TonyBaer: Instead of standup data marts, create self-service virtual data marts on Teradata box to prevent data drift #td3pi
108 czds	RT @JAdP: The Sentient Enterprise starts with agile datawarehousing and uses @Teradata #DataLabs @ratzesberger #TD3PI
109 czds	RT @prussom: Agile Data Warehouse at eBay. Anyone can request and provision their own data mart, ready in 5 min. #TD3PI #TDWI

0:20

	110 czds	RT @Teradata: if you cannot be agile with structured data, you certainly cannot be agile with #bigdata because it is so much harder. #td3pi
	111 marksmithvr	Glad @ratzesberger talking security - in fact our research finds top admin capability needed for information/data access by IT #td3pi
0:25	112 hackathorn	#td3pi #BBBT Oliver: first stage to Sentient Enterprise: Agile DW as data marts=>virtual data mart=>data labs. Reflection on eBay's story
	113 merv	#td3pi @ratzesberger "A working prototype is 100x better than a requirements document."
	114 tonybaer	and in turn, eBay built DW of DW. A DW of query logs to understand how virtual data marts were being used #td3pi @ratzesberger
	115 bevelson	#td3pi dw = data models, relational structures, sql, schema constraints. I don't see how DW can be #agile. Sorry
	116 colinjwhite	IMO virtual data marts are good but U still need to get the data in the EDW. Separate investigative analytic platform still required. #td3pi
	117 jackwmson	RT @Teradata: if you cannot be agile with structured data, you certainly cannot be agile with #bigdata because it is so much harder. #td3pi
	118 yvesmulkers	RT @TonyBaer: Instead of standup data marts, create self-service virtual data marts on Teradata box to prevent data drift #td3pi
	119 hackathorn	#td3pi #bbbt Oliver: Layered Data Architecture http://t.co/QV67W8QlQc
	120 prussom	@ratzesberger on sandbox. Does something quick; easy creation; eventual retirement; quality data provisioned; gov thru out. #TD3PI #TDWI
	121 datagenius	@ratzesberger presenting the journey to maturity. Interesting for an architect, #td3pi http://t.co/KGQZOKSpNZ
	122 ggheorghiu	RT @Claudia_Imhoff: #td3pi @ratzesberger says at @ebay, "A data mart cannot be cheap enough to be justified". Interesting! #BBBT
	123 jadp	Layered Data Architecture: staging, integration, calculation, aggregation, presentation, #DataLabs #TD3PI
	124 merv	#td3pi How comprehensive is your project? No more than necessary. Then add what works into ongoing larger model. Don't stop when "done."
